

Appl. No. 10/664,488  
Amdt. Dated February 2, 2004

**REMARK/ARGUMENTS**

The above-referenced correction is made to update the specification to reflect the correct filing date for U. S. Provisional Application 60/446,059 as May 12, 2003, in the Priority Information and to establish the correct date for the priority claim in the specification. The filing date for U. S. Provisional Application 60/446,059 is correct on the Filing Receipt. However, it was incorrect on the original "Declaration." Applicant therefore includes a newly executed "Declaration" with the correct filing date for U. S. Provisional Application 60/446,059 with this "Preliminary Amendment."

In the event the Patent Examiner considers personal contact advantageous to the disposition of this case, he is hereby authorized to call Applicant's attorney, Michael J. Nickerson at 585-899-3970. In view of the foregoing remarks and amendments, Applicant respectfully submits that the application is in condition for prompt publication and registration and favorable action is requested.

Applicant does not believe that any additional fees are due. However, if additional fees are due, please charge to Basch & Nickerson LLP Deposit Account 50-2737.

Respectfully submitted,
